Introduction: Cells and LEGOs

What is on this page?

- 1) Cell-City comparison
- 2) Lego parts
- 3) Comparing neutrophils to Lego NXT robot
- 4) Informal Assessment

In this unit we are going to use Lego NXT robots to learn about cells. In this section we will begin by comparing cells and cities. Then we will talk about Lego NXT robot set. And finally on this we will compare the Lego bot to a type of cell, called neutrophils.

The full unit can be accessed at <http://sites.google.com/site/schoolbiotech/>.
