

**Expanding Potential:  
Diversity in STEM Mini-Session & Mixer  
Saturday, June 27, 2015, 4-6pm  
Café Valparaiso  
1403 Solano Ave, Albany, CA**

**Join us for an evening of conversation about how to build inclusion programs that effectively respond to underrepresented minorities and the complete gender spectrum.**

**Special performance by modern dancer Nol Simonse, who will perform a piece he choreographed about challenging gender norms.**

**Nol Simonse - Photo by Andy Mogg**

- **Challenging gender norms**
- **Standing up for diversity in your research group**
- **Dealing with microaggressions**
- **Designing programs that meet students' real needs**
- **Fostering values of diversity among young students**
- **And much more**

**The Expanding Potential Program aims to help underrepresented groups in STEM fields to navigate hurdles to success. We organize workshops, meetings, and seed projects to propel innovative approaches to building diverse and inclusive research organizations.**
